ONAP TRAINING

Strategic Disaster Planning for Native

American Communities and Housing Programs

VIRTUAL TRAINING AGENDA

October 1-2, 2024 | 12:00pm-5:00pm Eastern Time

There will be breaks throughout the training

DAY 1: TUESDAY, OCTOBER 1

12:00 p.m. – 5:00 p.m.

Welcome and Introductions

Overview of Emergency Preparedness

A discussion of the potential consequences that disasters whether natural or human-caused, can have on a tribe/TDHE's economic, social, and environmental well-being; and how risk mitigation through a planning process can reduce the likelihood of those impacts.

Using Strategic Planning

Overview of Strategic Planning process and how it can be utilized in the development of emergency mitigation plan including forming a vision, establishing goals and objectives, and developing the plan. Example to be provided.

Risk Assessment

Definition of "risk" and the difference between "risk" and "hazard"; introduction to THIRA four-step process to link risk assessment with capabilities to respond and resources needed.

Strategies

Developing a risk management strategy encompassing the four phases of emergency management including Mitigation, Preparedness, Response, and Recovery.

Planning Approaches and Concepts

A look at three approaches to planning including Scenario (what could happen), Functional (how specific housing functions could be affected and how to keep them operating), and Capabilities (looking at what capabilities the tribe/TDHE will need in a crisis, such as Personnel, Planning, Leadership, Equipment/systems, and Training.

ONAP TRAINING

Strategic Disaster Planning for Native American Communities and Housing Programs

AGENDA (continued)

DAY 2: WEDNESDAY, OCTOBER 2

12:00 p.m. – 5:00 p.m. **The**

The Planning Process

Organizing the process (what approach to take), determining who should be included, the importance of engaging the community, accumulating data, and incorporating the plan into the tribal framework.

Plan Development

The Roaring River Case Study from the FEMA Tribal Mitigation Planning Handbook will be used to identify the critical steps in Emergency Plan Development, including Knowing Your Community, Identifying Hazards, Describing Potential Impacts, Understanding Your Capabilities, Developing the Strategy, Developing an Action Plan, and Keeping Track of Progress.

Best Practices

A look at several examples of tribal best practices in responding to hazards including the Lummi Tribe, the Quileute Tribe, and others to be determined.

Resources

A review of sample plans and websites (Tulalip, Shoalwater Bay, and others) related to risk mitigation; also, a look at various federal resources (CDC, FEMA, etc.) that have very useful information; and finally, a look at emergency plan development guidebooks that have been developed to assist tribes with the planning process.

Please Note: Times and topics, as specified on the agenda, are approximate and may vary depending on the pace of the class.
